Objective

Seeking a role to enhance and explore my technical knowledge. Eager to join an organization where I can utilize my knowledge and apply my leadership experience and abilities in order to achieve goals.

Skills

- Working with productivity applications and collaboration software
- Closely collaborated with project members to identify and quickly address the problems
- Worked on various programming languages such as Java, Python, PHP, C
- Worked on some of the frameworks like Bootstrap, Flask, Laravel, JQuery
- Being creative while working and implementing my projects

Experience

Class Representative

Vivekanand Education Society's Institute of Technology
June 2020 - September 2021

I have taken my time to become an effective class representative. I always address and take students' opinions to the teachers and student council.

VESIT Admission Team Member

Vivekanand Education Society's Institute of Technology
March 2021 - Present

Assisting the VESIT Admission team in various projects and initiatives. I have handled the ICA website of our college and addressed the queries from the students.

Rapid Web Development Intern

Jio Platforms Ltd.
July 2021 - August 2021

I have worked on the creation and deployment of web pages on videos and reels in the Jio Pages app.

Ganit App and Virtual MathLab Intern

College of Engineering, Pune
March 2021 - Present

Worked on database generation and implementing new ways of generating questions. Currently, we are working on creating and deploying a webpage where students can attempt math exams.

VESIT CMS Mentorship Module Intern

Vivekanand Education Society's Institute of Technology
March 2021 - Present

Developed a web application using Laravel Framework for Mentorship Module where mentors connect with the students.

Education

Vivekanand Education Society's Institute of Technology

Bachelor of Engineering (2019 - 2023)

I am currently studying for a BE degree majoring in Information Technology at

Vivekanand Education Society's Institute of Technology.

Fr. Agnel Multipurpose School and Jr. College

HSC (2017 - 2019)

Acquired 85.38 % in the HSC board examination

North Point School

ISCE (2017)

Acquired 92.6 % in the ICSE board examination

Achievements

- Participated in Code For Change Hackathon
- Runner-up in AI-Syberthon Hackathon
- Scored 99 out of 100 in Computer Science subject
- Secured first place in IQaranteen hosted by technical society in our college
- Secured first place in Nirvana - Proposed a solution to the major problem of Climate Change

Projects

Online Examination System

Used language - Python (Flask)

Online Examination System is a web application for efficiently taking online tests. A questionnaire can be filled before the examination which will then, in turn, be randomized and presented to the students. The MCQs will be checked and the subjective answers will be checked for keywords, based on which marks will be assigned to the student.

E-Commerce Management System

Used language - Java

E-Commerce System is a Java GUI application for online shop development. E-commerce System provides an easy way to sell products to a large customer base. When users land on an e-commerce site, they expect to find what they are looking for quickly and easily. The purpose of any e-commerce website is to help customers narrow down their broad ideas and enable them to finalize the products they want to purchase.

Custom Discord Bot

Used language - Python and JSON

Disguised Bot is an open-source, fully customizable discord bot that is constantly growing. It comes packaged with a variety of commands and a multitude of settings that can be tailored to your server's specific needs. Its codebase also serves as a base framework to easily create Discord bots of all kinds.

My Portfolio Page

Used language - HTML

My portfolio page gives a description of me, my passions for many things, many achievements, and so on. It is temporarily hosted on AWS.
